

## Minutes of the CLRSS Board Meeting

**Monday, September 9<sup>th</sup>, 2019**

**6:30 p.m. at Country Grocer Meeting Room.**

**In attendance:** (secretary will delete names as appropriate)

**Board members:** Jean Atkinson, Judy Brayden, Chantelle Carden, Rosemary Danaher, Diana Gunderson, Parker Jefferson, Lyndon Keeping, Mike Patrick and Ken Traynor.

**CLRSS Members:** Lois Atchison, Jim Deck, Bee Greenway, Maureen Quested and Katharine Staiger.

**Guests:** Kurt Combs, Cliff Holmes, CVRD Area I Director, Klaus Kuhn, CVRD Chair, CWB CO-Chair and CVRD Area F Director, Ian Morrison, and CWB Executive Director, Tom Rutherford.

**Absent with regrets:** Christine Brophy, , Rick Bryan, Karen Deck, Joe Saysell, Genevieve Singleton Lyle Kuchmak, Cate MacNeill, Peter Noble and Lake Cowichan Mayor, Rod Peters.

**Note:** The CLRSS Board welcomes the opportunity to meet and to involve the membership in the society's decision-making process. Therefore, all members and community are welcome to attend and to participate in the meeting discussion. While all opinions may influence decision-making, only Board members may move/second or vote on motions.

Item	Action: What? By Whom? When?
<p><b>Introductions of members with reminder about our meeting conduct guideline.</b> Using the Fourfold Way we:</p> <ul style="list-style-type: none"> <li>• respect each other by having just one speaker at a time</li> <li>• expect people to speak from the heart with passion</li> <li>• expect people to show up to solve problems and</li> <li>• expect people to speak without blame.</li> </ul> <p><b>NOTE: Priority for this very, full meeting agenda: Items have been ordered so that ongoing and/or emergent issues are dealt with first. Reports have been ordered to respect the fact that some individuals have to leave early. We appreciate their time in this busy stewardship season.</b></p> <p><b>In an effort to reduce the meeting length, could report presenters please consider this guide: <u>What is it that we all absolutely need to leave this meeting having learned from your report? Thank you.</u></b></p>	
<p><b>Agenda:</b> RMS Mike Patrick/Lyndon Keeping that the agenda be adopted as amended. CARRIED</p>	
<p><b>Minutes of the previous meeting:</b> RMS Judy Brayden/Chantelle Carden that the minutes of the August 12<sup>th</sup>, 2019 CLRSS Board meeting be accepted as amended. CARRIED</p>	
<p><b>CSSP Report:</b> Christine Brophy was absent. Ken Traynor reported on the Cowichan Shoreline Stewardship Project. While it is not entirely clear what the future CLRSS involvement in shoreline restoration will look like, we will move forward in some form. Diana Gunderson reported that both LCS students and CSSP employees, Jordy and</p>	<p><b>NOTE: A CLRSS and LCS collaborative volunteer work party will be required for upkeep on Friendship Trail in Lake Cowichan. A call-out for volunteers will be</b></p>

<p>Ryder, are both entering grade 12 and are interested in being part of the program next year. We have been extremely fortunate in the calibre of students who have been involved in the y6-year long program. On three occasions this year, the students worked with Parker Jefferson on the salmon rescue work.</p>	<p><b>made in September. Christine Brophy will confirm the date with Diana Gunderson.</b></p>
<p><b>Business Arising from the Minutes and Old Business:</b></p> <ol style="list-style-type: none"> <li><b>1. The procedure for implementation of the CLRSS Policy on Acceptance of Donations/Sponsorships:</b> Judy Brayden reported that while we have a policy, now we need to draft a simple procedures document.</li> <li><b>2. The CLRSS Re-visioning process update:</b> Ken Traynor, Katharine Staiger, Jean Atkinson and Judy Brayden reviewed their proposal for the re-visioning process: using the SOAR model and that we undertake the first two steps as agenda items at the October and November Board meetings (those absent would be asked to give ideas in email). We would begin at 5:00 on both the meeting dates, work for up to 60 minutes, have a dinner break and then proceed with the usual Board meeting. Trish McAdie has kindly agreed to prepare a survey for the general membership and all of those past members and attendees whose names we have on file. The timeline for completion by the members of the survey would be October 15 – Oct 31, 2019, after which time the information will be collated and prepared for inclusion in the next two steps. Ken Traynor and Jean Atkinson will review the Royal Roads submission and add this input as well. On the day-long facilitated session, Beth Page would lead attendees thru the last two parts of SOAR.</li> <li><b>3. Jet Ski issue on the Cowichan River:</b> Ken Traynor reported that the Town of Lake Cowichan has a bylaw about jet ski use</li> <li><b>4. CLRSS Annual River Clean-Up Report:</b> Co-chairs Judy Brayden and Diana Gunderson have distributed the RCU Report and Recommendations package and will appreciate feedback/ comments and ratification at the October Board Meeting. (See Appendix 5 below). Diana Gunderson expressed thanks to the committee members for their stellar effort this year. <b>Lower river clean-up report:</b> Tom Rutherford reported that 2019 saw 127 volunteers, the largest number to date, and reported that the partnership with the local Rotary Club was very helpful.</li> <li><b>5. Fry rescue:</b> Parker Jefferson reported that the 2019 fry rescue is complete. The team of volunteers (CLRSS/CWB, Paper Excellences, Cowichan Tribes and local fisherman, Joe Saysell) working for 16 weeks have rescued over 65,000 fry. An interesting discovery was that DNA test results from fin clips that had been collected over the past years, showed that some of the samples were a form of hybrid chinook and coho species.</li> <li><b>6. September 28<sup>th</sup> Quw'ut'sun Cowichan River Celebration 10:00 – 3:00 p.m.</b></li> </ol>	<p><b>Item 1: The Executive Committee with assistance from Mike Patrick, Rosemary Danaher, Chantelle Carden and Judy Brayden will undertake this procedural work and will bring a recommendation back to the Board for approval asap.</b></p> <p><b>Item 2: RMS Rosemary Danaher/Diana Gunderson that the proposal as outlined be accepted. CARRIED</b></p> <p><b>Item 3: Ken Traynor will contact Mayor Peters and discuss the enforcement of the bylaw and will report back at the next Board meeting.</b></p> <p><b>Item 4: Suggested CLRSS Annual River Clean-up Mission Statement: It is the goal of this event to provide an opportunity for members of the larger community to share in the care and cleanliness of our heritage river, experiencing the cammaredie and shared, public responsibility for this precious asset.</b></p> <p><b>Item 6: It was agreed that Ken Traynor, Rosemary Danaher, Judy Brayden, Chantelle Carden, Lois Atchison, Jean Atkinson and Diana Gunderson will represent CLRSS at the event. Set-up details will be forthcoming.</b></p>

<p><b>Cowichan Watershed Board report and Weir Ready Campaign:</b>          Tom Rutherford, CWB Executive Director, reported that Paper Excellence has begun pumping water over the weir. The water level in the Cowichan Lake is lower now than it has ever been.</p> <ul style="list-style-type: none"> <li>· He referred to the BC Salmon Restoration and Innovation funding announcement and reported that a search is underway to fill the position of Project Manager.</li> <li>· He reported that the Koksilah River is now running at 2% of its mean annual discharge – below critical flow levels. Hence, Section 88 of the BC Water Sustainability Act has been invoked. This limits some agricultural license holders from extracting water at this time.</li> <li>· Water and land management remain key talking points and at the recent 75+ Celebration in Lake Cowichan, the CWB crews engaged with 24 separate, community members about the water level issue. Of the 24, only 1 response was negative (specifically about the issue of pumping).</li> <li>· Further, the BC Freshwater Legacy Initiative has funded the production of a video by the CWB and also attendance of CWB rep at a Board of Governors meeting of the Real Estate Board of BC</li> <li>· In an unprecedented move, the CWB has been asked to act as a referral agent by the Municipality of North Cowichan in regard to the expansion request by Vancouver Island Motorsports.</li> <li>· Timber West recently sponsored a tour of three forest sites that was attended by several members of the CWB and the CVRD Board of Directors.</li> <li>· CLRSS Board members were assured that “the Partners” will be working together to make more information about the work associated with the BCSRIF grant available and distributed widely once more details are known.</li> </ul>	
<p><b>CVRD Report:</b> Ian Morrison, CVRD Board Chair and Area F Regional Director reported on various media events around the Federal government watershed announcement.</p> <ul style="list-style-type: none"> <li>● He reported that there are presently three outstanding shoreline infractions: Youbou, on the river and in Honeymoon Bay.</li> <li>● The Couverdon Realty development application (Area F) is coming forward for third reading soon.</li> <li>● The Little Beach rezoning application has gone to committee.</li> <li>● He reiterated that the weir synopsis prepared by CWB/CVRD needs to come to the shoreline owners. When the next concrete steps are understood this campaign will appear.</li> <li>● The CWB Weir Ready door-hangers are going into the mailboxes in the Youbou are very soon. The issue of delivering door-hangers to summer residents in Youbou was referred to the Landowner Education Committee.</li> <li>● Members were reminded to send the names of potential Weir Ready interviewees to Ken Traynor and then to Jill Thompson for use in the summary.</li> </ul>	<p><b>NOTE: The progress on these shoreline infractions will be reviewed as part of this report at subsequent meetings.</b></p>
<p><b>Treasurer’s Report:</b> See Appendix 2 below or sent separately.  <b>RMS Lyndon Keeping/Judy Brayden that the report be accepted as printed/distributed. CARRIED</b></p>	<p><b>NOTE: The members agreed that it would not be necessary to have a report prepared for the October</b></p>

	<b>Board meeting, as the Treasurer will be away.</b>
<b>Communications/Education as needed:</b> Chantelle Carden reported that the Weir Ready campaign will be highlighted on facebook etc., this term.	
<b>Landowner Education:</b> Ken Traynor updated the members on the <i>Lake Levels and Your Beach</i> progress to date. (see Appendix 6 attached as a separate file). He noted that the strata organization model is useful in dissemination of information.	
<p><b>Gerald Thom Memorial Native Plant Garden:</b> Bee Greenway reported her thanks to all for the time and enthusiasm poured into this project. It turned out very well, and now the public can come and enjoy learning a bit about native plants that can be incorporated into a garden in their own yard; plus Caroline Thom was very touched at the tribute to Gerald. I'd like to think he would have been pleased to see it groomed up so nicely now. Secondly, it's our opportunity to pick a direction for adding river rocks to the border of the interior pathway of the Garden.</p> <p><b>The Issue of Blackberry Removal at Saywell Park:</b> Members noted that it is time again to undertake this clean-up, however we do not have a "leader "for this piece.</p>	<b>NOTE: This will be referred to the upcoming Executive committee agenda.</b>
<b>Fundraising Report:</b> Maureen Quested reported that there are no plans for fundraising events in between now and the 2020 AGM.	
<b>Retail Sales Report:</b> Rosemary Danaher reported sales for August at \$280. Profit \$76.98; Gifted \$137.64	
<b>Social Report:</b> Rosemary Danaher NIL report	
<p><b>Membership Report:</b> Mike Patrick reported that:</p> <ul style="list-style-type: none"> <li>● at the River Clean Up event, we sold 9 memberships in total, 4 of which were new members</li> <li>● our membership presently stands at 92, very close to the magic 100 mark we shoot for every year. If you know of any prospects, please pursue them.</li> <li>● and . . . <ul style="list-style-type: none"> <li>○ 22 % of our members joined this year</li> <li>○ 13% of our members have been with us since the formation of the Society</li> <li>○ 3% of our members are lifetime members</li> <li>○ 12% of our members joined last year and renewed again this year</li> <li>○ 14% of our members have been with us for at least three years (not necessarily consecutive years)</li> <li>○ 36% of our members have been with us for between 4 and 8 years (not necessarily consecutive years)</li> </ul> </li> </ul>	

<p><b>Strategic Plan Committee Reports - Due to length of meeting agenda, NIL reports may be recorded.</b></p> <p><b>A. Regional Meetings:</b></p> <p>i.) Stewardship Roundtable – Co-chair, Parker Jefferson reported that the fall meeting schedule begins on September 19<sup>th</sup>, 2019.</p> <p><b>B. Land Stewardship:</b></p> <p>i.) CSSP – See above</p> <p><b>C. Water Stewardship:</b></p> <p>i.) Water monitoring:</p> <p>a. Ken Traynor commented on the Oxybenzone Residues found in the upper Cowichan River - August 2019 (See REVISED Appendix 4 below). Further follow-up will be reported at future meetings</p> <p>b. Bee Greenway reported that due to other CLRSS activities such as River Clean Up and dedication of the GTMNP Garden, only 2 readings were done in August. However, this meets the provincial goal of 12 readings. Lake clarity remains excellent with temperature remaining above 21 degrees, even 3M down. They will do 1 or 2 more readings in September.</p> <p>ii.) Stream signage – NIL report.</p> <p><b>RMS Diana Gunderson/Rosemary Danaher that the above reports be adopted as presented. CARRIED</b></p>	
<p><b>New Business:</b></p> <p>1. <b>ROWLAC (Right of Way Lake Cowichan)</b> the background was provided by Ken Traynor (see letter Appendix 3 below). Directors Kuhn and Morrison reported that MOTI will only look at the highway ROW individually and if in fact the neighbours agree to reclaim the ROW. Jean Atkinson questioned the involvement of CLRSS at this time with lake access issues. We were reminded that this is no longer a CLRSS goal because the action that we had undertaken was completed, however should this be identified as an interest area at the upcoming re-visioning session, the goals could alter.</p>	<p><b>NOTE: Ken Traynor will forward the letter to CVRD Chair, Director Morrison, who will seek staff advise on this.</b></p>
<p><b>Motion to Adjourn Rosemary Danaher at 8:30 p.m.</b></p>	
<p><b>Important dates:</b></p> <ul style="list-style-type: none"> <li>● <b>Saturday, September 28<sup>th</sup> Quw'ut'sun Cowichan River Celebration 10:00 – 3:00 p.m.</b></li> <li>● <b>Monday, October 7<sup>th</sup> CLRSS Re-visioning and regular Board Meeting – 5:00 – 6:30 location TBA - for re-visioning and dinner, followed by the regular Board meeting.</b></li> <li>● <b>Monday, November 4<sup>th</sup> CLRSS Re-visioning and regular Board Meeting – 5:00 – 6:30 location TBA - for re-visioning and dinner, followed by the regular Board meeting.</b></li> <li>● <b>Saturday, November 16, 2019 – time and location TBA – daylong re-visioning session with facilitator, Beth Page.</b></li> <li>● <b>Monday, December 2<sup>nd</sup> Regular CLRSS Board Meeting – 6:30 Country Grocer meeting room</b></li> </ul>

### Briefing Document- ROWLAC- revised Aug 26<sup>th</sup> 2019

1. This briefing document is to bring current members of ROWLAC up to speed. This document has been revised based on discussions with the Cowichan Valley Regional District (CVRD) and the Ministry of Transportation and Infrastructure (MOTI).
2. We met with CVRD in May and sent a letter to Brian Farquhar of CVRD Parks and Recreation on June 3<sup>rd</sup> 2019 summarising the results of the first meeting.
3. Since then we have had a meeting with Klaus Kuhn, the area rep. for Youbou and have discussed ROWs with both the MOTI and CVRD. Both bodies have been cooperative and the MOTI have been the most helpful. Jessica Learn of MOTI has expressed interest in attending the first formal meeting of ROWLAC. We are currently reviewing the schedule so that all members can attend.
4. There are 3 situations identified on the MOTI site for situations resulting in action on ROWs.
  - Complaints by the public (such as neighbours).
  - Action by community groups- generally volunteer efforts
  - Improvements. In such cases CVRD or other body takes the lead. They apply to MOTI for permit. In such cases the CVRD or other body will enter into an agreement with MOTI covering the improvements and agreeing to cover the maintenance under a Licence of Occupation.

5. CVRD have a limited budget in terms of improvements to ROWs. The Area representative is responsible for bringing forth improvements to the CVRD Board. These are dealt with under the Parks and Recreation budget.
6. Undeveloped ROWs are dealt with directly with the MOTI under either:
  - Adopt a Highway programme. The Adopt a Highway program enables litter pickup, invasive species reporting, landscaping and limited vegetation removal such as raking and clearing without the use of power tools or machinery. If there is community interest in minor clean up projects then a volunteer group can apply to the Adopt a Highway program. Permission to do landscaping and clean up work will still require engagement with all water access neighbors prior to work approval.
  - Application for MOTI permit. Presumably this would apply where the works do not fully align with the Adopt a Highway criteria (awaiting MOTI clarification)
7. In order to give clearance of ROWs the priority it is essential that ROWLAC advocate for action at the CVRD, MOTI as well as provincially with the local MLA and others. This will necessitate an assessment of existing ROWs and encroachments/complaints and behaviour contrary to the public interest. Also essential are:
  - Priority of action (s)/improvements on ROWs.
  - Schedules of desired improvements and priorities for implementation.
  - Estimations of cost of improvements- in conjunction with CVRD or other bodies.
  - Advocacy including Issuing notices to adjacent properties identifying potential issues/violations of public access/encroachments etc.
  - Dispute resolutions- to be discussed at next meeting.
  - Community feedback on success of programme, maintenance and emerging needs of ROWs and appropriate community- sensitive facilities that should be taken forward and acted on by MOTI, CVRD and other agencies.
8. Publicity in order to provide community awareness of ROWs actions necessary, volunteer and other efforts/improvements.

### **Budgets:**

- Parks and Recreation are primarily responsible for tangible improvements to Parks. They do not currently have a budget to undertake improvement works and consequently their current position appears to be that little can be done to resolve the ROW issues. We intend to maintain a good ongoing relationship with CVRD to highlight the need for action.
- ROWLAC's remit is to bring an awareness of ROW issues to CVRD and MOTI in order to ensure that the community need for ROWs is met and that both MOTI and CVRD are made aware of the current shortcomings of the ROWs and the need for allocations of funding to resolve these issues in the public interest. This may need attention at all levels of the government.
- As part of this programme we need to be able to make the public aware of ROWLAC's activities and changes to ROWs needed. Consequently, ROWLAC needs to have a significant publicity component.
- ROWLAC should seek to secure whatever funding is available through various sources. This funding can then be factored into cost components of projects and will also cover the minor costs associated with administration.

### **Next Steps:**

- Fine tune the ROWLAC identity and have letterhead and logo produced.

- Schedule first formal meeting of ROWLAC. MOTI have indicated that they will attend (we are currently addressing the schedule). Discuss CVRD attendance and way forward.
- Revise and issue briefing documents under auspices of the committee.
- Meet with CVRD and MOTI to reach a consensus on the way forward.

Prepared for AD HOC discussion at next meeting: scheduled for September 13<sup>th</sup> , 2019.

#### Appendix 4: Oxybenzone Residues found in the upper Cowichan River - August 2019

**Summary:** This project is a collaboration between BCCF, the Cowichan Watershed Board and CLRSS using funding from a HCTF Seed Grant and the BC MOE. The project objective is to determine whether residues from the sunscreen agent oxybenzone are present in the waters of the Cowichan River and at what levels. On Monday, August 5<sup>th</sup> 2019, between 3:03 and 4:06 PM Ken Traynor of CLRSS collected water samples at four locations in the upper 3.8 km of the Cowichan River. Samples were immediately put on ice and stored overnight in the fridge and shipped by cooler, packed in ice by overnight courier on August 6<sup>th</sup> to ALS Environmental Labs in Burnaby. ALS in Burnaby forwarded the samples to the ALS Global Lab in Kelso Washington for testing.

Sample sites were chosen to reflect increased exposure to tuber time in the river from entry below the weir in Saywell Park to exit at Little Beach, often taking 3 hours of travel time. The fourth site is below the Town of Lake Cowichan sewage treatment plant outfall which could be a second entry for sunscreen residues in the river.

At least 2,086 tubers were directly observed in the river by Ken Traynor over the 3-day, long weekend, which can be taken as a minimum number in the river. 838 tubers, 7 per minute, were observed over 2 hours between 2:40 and 4:40 PM on August 4<sup>th</sup>, passing below the Greendale Trestle. On the day of sampling, between 3 and 4:30 PM a total of 443 tubers were counted near the sample locations.

Results show trace amounts of oxybenzone at detectable levels at all four sample sites ranging from 68 ng/L near the most common tuber entry point below the weir to 570 ng/L (8.4 times higher) at the Little Beach exit point. ( 1ng/L is 1 part per trillion )

#### Sample Results as Reported by ALS Global Labs August 28, 2019

(Four samples taken by Ken Traynor on Monday August 5<sup>th</sup> between 3:03 and 4:06 PM Air Temperature of 30 degrees and river flow of 4.5 cms )

Sample Location	Analyte	Result	MRL	Units	EPA Method*
Cowichan River@ pedestrian bridge 280m d/s from Weir	Oxybenzone	68	23	ng/L	1694
Cowichan River @ Greendale Trestle 1.4 km d/s from weir	Oxybenzone	300	23	ng/L	1694
Cowichan River @ Little Beach 2.8 km d/s from weir	Oxybenzone	570	23	ng/L	1694
Cowichan River d/s of TLC sewage outfall pipe 3.8 km d/s from weir	Oxybenzone	360	23	ng/L	1694

\* **EPA Method 1694** determines pharmaceuticals and personal care products (PPCPs) in environmental samples by high performance liquid chromatography combined with tandem mass spectrometry (HPLC/MS/MS) using

isotope dilution and internal standard quantitation techniques. This method has been developed for use with aqueous, solid, and biosolids matrices. **Method Reporting Limit (MRL)** is 23ng/L.

## Appendix 5:

### 2018 and 2019 CLRSS Annual River Cleanup Volunteer Count by Area
